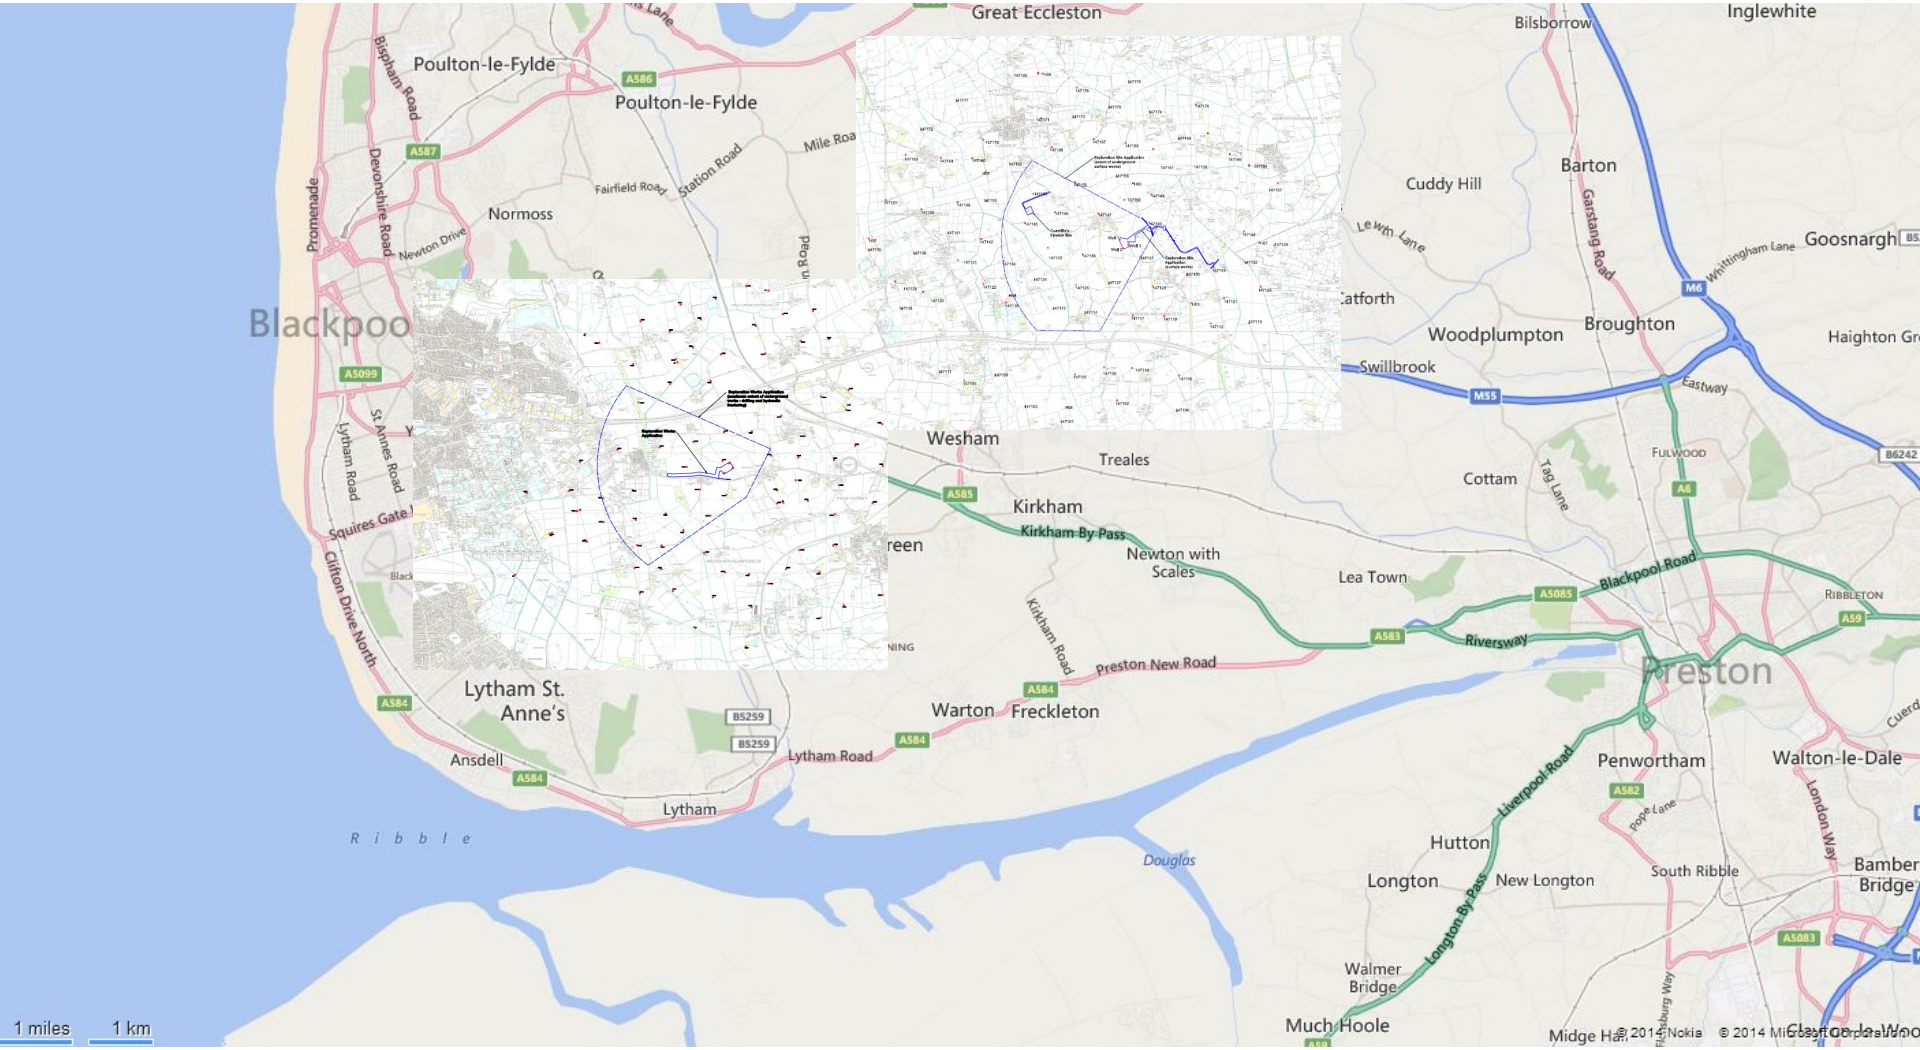
Distribution of Cuadrilla's proposed 184 Monitoring sites across Wyre & Fylde and Preston



To view the locations of each of the sites, use your software to zoom into this slide.

- You can then get the exact address from the list of sites in each of the applications
- Grounds for objection include :
  - that the sites will establish the principle of development for minerals exploration & drilling and detract from the intrinsic value and rural character of the countryside.;Impact on safety, due to traffic access;
  - Impact on your amenity due to noise, dust and light from site & traffic activity
